MOTORBIKE ENGINE OIL

4T XR & 2T XR

essenza sintetica 4T XR (Extra Racing) is a line of lubricants developed for 4T high performance motorbikes. These fully synthetic oils are formulated to provide exceptional protection and performance. The use of Group IV base oils, esters and selected additives of proven performance make **essenza sintetica 4T XR** the best choice for the lubrication of powerful motorbikes used for racing. These oils are offered in a variety of viscosities to meet or exceed the latest requirements of JASO and API specifications.

essenza sintetica 2T XR is a fully synthetic, high performance lubricant intended for 2T engines of motorbikes used in racing activities and are formulated to meet or exceed API TC, JASO FD, ISO-L-EGD. Consult the manufacturer for the correct specification recommended by the engine manufacturer before use.

Available SAE grades and specification levels

4T:
10W-30, 5W-40, 10W-40, 15W-50, 10W-60
API SL, API SN, JASO MA, MA2

2T:
smokeless, selfmix, premix, strawberry-scented
API TC, JASO FD, ISO-L-EGD, Husqvarna, Piaggio Hexagon

Sport 4T & 2T

essenza sintetica Sport 4T is a line of lubricants intended for use in the lubrication of high power motorbikes equipped with 4-stroke engines. These lubricants are formulated with 100% synthetic base oils of Group III additives suitable for the lubrication of motorbikes subject to high temperatures used for riding on motorway as well as urban stop and go driving.

Available SAE grades and specification levels

4T:
10W-30, 10W-40, 15W-40, 10W-50, 15W-50
API SL, API SN, JASO MA, MA2

2T:
smokeless, selfmix, premix, strawberry-scented
JASO FC

Tour 4T

Tour 4T is a line of lubricants intended for use in the lubrication of 4-stroke motorbikes. These lubricants are formulated with semi-synthetic and mineral base oils of Group II and using additives suitable for the lubrication of motorbikes subject to long distance service on motorways and extra-urban roads and for stop and go service in urban operation.

Available SAE grades and specification levels

10W-30, 10W-40, 20W-40, 10W-50, 20W-50
API SL, API SN, JASO MA, MA2

Super 4T, Road 4T & 2T

Super 4T and Road 4T are oils formulated for the lubrication of motorbikes with many years of service that require frequent oil change and are available in a wide variety of viscosities and specification with particular attention at optimizing service cost. 2T premix and selfmix oils are formulated for the effective lubrication of 2 stroke motorbikes. Super 4T and Road 4T ensures long life for all moving parts which substantially reduces the need for engine servicing and overhaul.

Available SAE grades and specification levels

4T:
10W-40, 15W-40, 20W-40, 20W-50, 40
API SG, API SF/CC, JASO MA

2T:
smokeless, selfmix/premix, strawberry-scented
API TC, JASO FC, API TA/TB

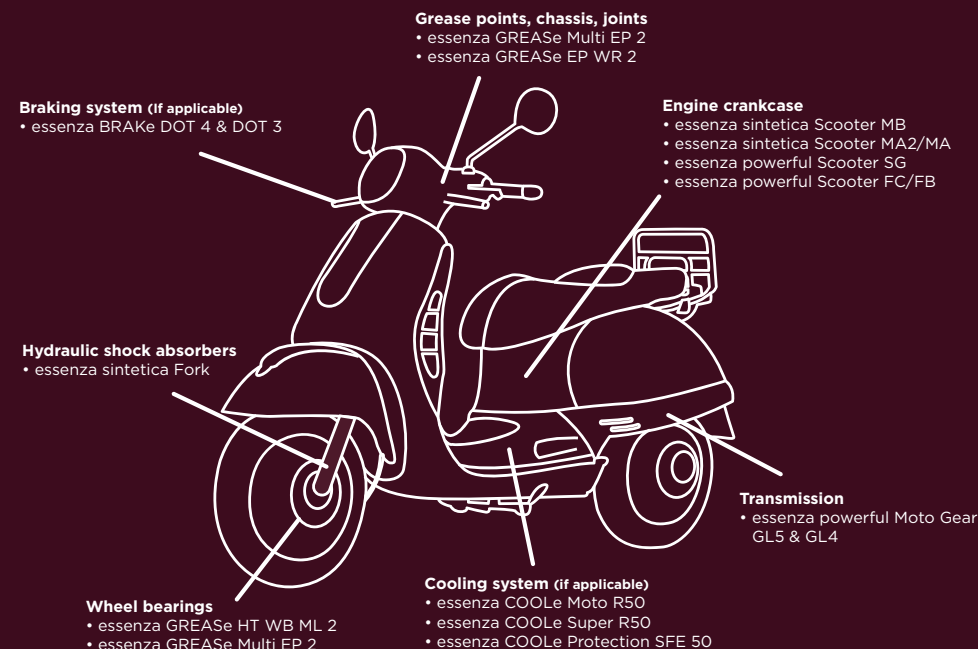

Scooter

essenza sintetica Scooter line is specially developed to meet the lubrication needs of modern 4-stroke and 2-stroke engine powered scooters utilized under many different service conditions. The 4T range, produced with synthetic, semi-synthetic and mineral base oils, includes low friction oils and a wide range of viscosities to cater for the diverse requirements of the different scooter manufacturers. The line also includes cost effective grades particularly suitable as first fill or running in oil or when very frequent oil change is practiced. 2T Selfmix and Premix grades are also available.

Available SAE grades and specification levels

4T:
5W-30, 10W-30, 5W-40, 10W-40, 15W-50
API SN, API SL, API SG, JASO MA, MA2, MB

2T:
smokeless, selfmix, premix, strawberry-scented
API TA/TB, JASO FB, FC

About essenza motorbike engine oils

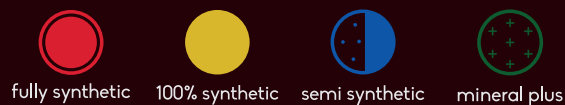

Despite the environmental and emission regulations relating to the 2-stroke motorcycles, there are still a huge number of vehicles on the roads. Hence, the demand for quality 2T engine oils that provide adequate protection against ring sticking, exhaust blocking and reduction in smoke levels, especially in urban areas, is quite high.

4-stroke engine oils, on the other hand, demand a different type of oil as they run at high temperatures and have higher power output. Therefore, the oil must provide superior protection while optimising engine performance.

The **essenza** range of motor oils has been developed after careful understanding of our market needs not just for the lubrication of 2 and 4-stroke engines but also for the gearbox, fork, bearings and cooling system.

Base Oil Quality

About essenza

essenza, conceptualised by Italian designers and brought to life by an international network of lubricant specialists, is a versatile brand that symbolise energy, efficiency, excellence and evolution.

essenza is a comprehensive range of premium lubricating oils, greases and related products, positioned at the global lubricants market. Our international technical team bring with them decades of experience in product development and formulations. Therefore, our strength lies in selecting the latest technology available to meet market expectations while our adaptation strategy assures customisation in local markets.

Our carefully selected range is available from ISO 9001 plants in Singapore and Europe and is available in an array of packaging options, to cater for our diverse market demands.
